Memo

DATE: August 30, 2013
TO: Jack Ecklund, City Engineer
FROM: David Swindale, Director Planning and Development DS
SUBJECT: 2013 Transportation Implementation Program

According to SB6406 effective July, 10, 2012 the following new section was added to WAC 197-11 SEPA Rules:

NEW SECTION. Sec. 307. A new section is added to chapter 43.21C RCW to read as follows: The following non-project actions are categorically exempt from the requirements of this chapter: (1) Amendments to development regulations that are required to ensure consistency with an adopted comprehensive plan pursuant to RCW 36.70A.040, where the comprehensive plan was previously subjected to environmental review pursuant to this chapter and the impacts associated with the proposed regulation were specifically addressed in the prior environmental review.

I have discussed this legislative change with the State Department of Ecology SEPA Division and determined that until or unless further clarification is provided it is for the local jurisdiction to determine if this rule change applies to the annual adoption of Transportation Implementation Programs (TIP).

As the SEPA Official I am inclined to categorize the annual TIP amendment as a development regulation that is required to ensure consistency with an adopted comprehensive plan and therefore, determine its amendment and adoption to be exempt from SEPA. The City's Comprehensive Plan as previously subjected to environmental review pursuant to WAC 197-11 and the impacts associated with Transportation Element of the Plan were specifically addressed in the prior environmental review.

This determination may change for future TIP amendments if future SEPA rulemaking dictates.
