#### **RESOLUTION NO. 919**

A RESOLUTION OF THE CITY OF UNIVERSITY PLACE, WASHINGTON, AMENDING THE SIX-YEAR TRANSPORTATION IMPROVEMENT PROGRAM, AND DIRECTING THE SAME TO BE FILED WITH THE STATE SECRETARY OF TRANSPORTATION AND THE PUGET SOUND REGIONAL COUNCIL

WHEREAS, RCW 35.77.010 requires the City to adopt a comprehensive transportation program; and,

WHEREAS, a Six-Year Transportation Improvement Program (TIP) is an important consideration in the City's long-range planning; and

WHEREAS, a TIP will be a tool to help the City plan the directions it will consider in the future; and

WHEREAS, street and arterial needs are important considerations to the City; and

WHEREAS, following a Public Hearing on March 4, 1996, the proposed Six-Year Transportation Improvement Program was adopted; and

WHEREAS, the Six-Year Transportation Plan was amended on November 17, 1997 August 17, 1998, and July 7, 1999; and August 21, 2000, August 6, 2001, September 16, 2002, August 4, 2003, November 1, 2004, September 6, 2005, November 6, 2006, March 17, 2008, November 10, 2008 and October 5, 2009; October 18, 2010; October 24, 2011; April 30, 2012; October 15, 2012; September 16, 2013; April 14, 2014; September 8, 2015; August 1, 2016; August 7, 2017; and August 21, 2018; July 1, 2019:

WHEREAS, a public hearing was held on the Amended Six-Year Transportation Improvement Plan on Monday, May 18, 2020.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF UNIVERSITY PLACE, WASHINGTON, AS FOLLOWS:

Section 1. <u>Program Adopted</u>. The revised Six-Year Transportation Improvement Program for the City of University Place, a copy of which is attached hereto as Exhibit A, which program sets forth project locations, type of improvement and the estimated cost thereof, is hereby adopted and approved.

Section 2. <u>Filing of Program</u>. The City Clerk is hereby authorized and directed to file a copy of this Resolution, together with the Exhibit attached hereto, with the Secretary of Transportation and the Puget Sound Regional Council.

Section 3. Effective Date. This Resolution shall take effect immediately upon signing.

ADOPTED BY THE CITY COUNCIL ON MAY 18, 2020.

Caroline Belleci, Mayok

### **OVERVIEW**

#### Purpose

The purpose of this document is to revise the City of University Place 6-Year Transportation Program (adopted March 4, 1996) and to coordinate the City's future programs and projects. The Revised Code of Washington (RCW) Chapters 35.77 and 36.81 requires this document to be updated annually and to be filed with the Secretary of the Department of Transportation. This document is also prepared to inform other neighboring jurisdictions of the City of University Place's current planning direction for transportation needs.

#### Review

This document is submitted to the Puget Sound Regional Council (PSRC) for review and inclusion in the yearly update of the Transportation Improvement Plan (TIP). Their review of projects receiving federal funding in the near term fulfills the requirement that the Regional Transportation Planning Organization (RTPO) determine that such expenditures are consistent with regionally adopted goals and plans.

#### Project Selection

Projects included in this document are the result of evaluation of needs in various transportation areas. Through citizen surveys, the citizens of University Place expressed that non-motorized transportation improvements (sidewalks, bike lanes, streetlights, etc.) are the most needed improvements in University Place. In addition, the Public Works Department receives many calls from concerned citizens requesting improvements to the City transportation network to allow for safer pedestrian use. Almost all of the projects in this document provide for non-motorized transportation and replacement of existing infrastructure. The timing of projects and the phasing of various parts are based on the anticipated funds available for each type of project, accident information, and school and commercial access routes. Understandably, the factors determining funding and priority can and do change from year to year.

#### **Program Section**

Projects included in this document are separated into the following categories:

- Project List
   Summary list of projects included in the Six-Year Transportation Plan.
- 2. Six-Year Plan
  Shows detail project description, limits, schedule, and funding status.

1

## **Funding Sources**

#### **REVENUES**

#### Arterial Street Fund

The City receives a proportionate share of the State Motor Vehicle Fuel Tax, based on the population. The exact amount varies depending on the amount of fuel sold in the State.

#### General Fund

The General Fund is supported primarily from local taxes to provide governmental services such as police protection, jail services, court services, parks maintenance, recreation programs, building inspections, planning and zoning, construction and maintenance of streets, and general government administration.

#### Surface Water Management Funds

The City collects a surface water management fee on each City parcel to finance surface water and storm drainage elements of various road improvement projects. In addition, the City uses revenues from the Surface Water Management (SWM) Fund, which is utilized to finance capital improvement surface water and storm drainage projects.

#### Real Estate Excise Tax

The Real Estate Excise Tax is levied on all sales of real estate, measured by the full selling price. The City has authorized a locally imposed tax of 0.5%, in two 0.25% increments. These revenues are restricted to financing capital projects as specified in the City's Capital Facilities Plan.

#### Traffic Impact Fees

The City has passed a Traffic Impact Fee for increased street use based on development within the City. The TIF will generate funds to improve streets and related infrastructure directly attributable to the increased development. The TIF project list is included as the last section of this document.

#### FEDERAL FUNDING PROGRAMS (SAFETEA-LU, CMAQ, STP, CCRP, TSNS)

Federal programs are currently funded under the Safe, Accountable, Flexible, Efficient, Transportation Equity Act (SAFETEA-LU) and are administered by the Highways and Local Programs Division of the Washington State Department of Transportation (WSDOT), in conjunction with the Puget Sound Regional Council (PSRC) and the Regional Federal Highway Engineer.

#### <u>SAFETEA-LU</u>

The Safe, Accountable, Flexible, Efficient, Transportation Equity Act (SAFETEA-LU) funds transportation enhancement activities designed to strengthen the cultural, aesthetic and environmental aspects of the Nation's inter-modal transportation system. The program provides for the implementation of non-traditional projects, such as bike and pedestrian facilities, safety and education activities for pedestrians and bicyclists,

#### City of University Place, Washington

landscape and scenic beautification, and the mitigation of water pollution from run-off. Funding is based on a Federal share of 86.5 percent, with a 13.5 percent local match.

#### CMAQ

The Congestion Mitigation and Air Quality Improvement Program (CMAQ) funds transportation programs and projects that will, or are likely to, contribute to attainment of a National Air Quality Standard. WSDOT is required to consult with the Environmental Protection Agency to determine whether a transportation project or program will contribute to attainment of standards, unless such project or program is included in an approved State implementation plan. CMAQ funds cannot be used on projects resulting in the construction of new capacity available to single-occupant vehicles unless they are available to single-occupant vehicles at other than peak travel times. Allocation for CMAQ funds will follow the same criteria as Surface Transportation Program (STP) funds. To be eligible for funding under this program, a project must be on the Regional Transportation Improvement Program (TIP) list and rank high enough on the region's priority array. Funding is based on a Federal share of 86.5 percent, with a 13.5 percent local match.

#### STP

The objective of the Surface Transportation Program (STP) is to fund construction, reconstruction, resurfacing, restoration and rehabilitation of roads that are not functionally classified as local or rural minor collectors. STP also supports funding for transportation enhancements, operational improvements, highway and transit safety improvements, surface transportation planning, capital and operating cost for traffic management and control, carpool and vanpool projects, development and establishment of management systems, participation in wetland mitigation and wetland banking, bicycle facilities and pedestrian walkways.

STP funds have regional allocation through the Puget Sound Regional Council (PSRC). The PSRC sub-allocates funds by County region based on the percentage of the population. The Puget Sound Region is formed by the counties of King, Kitsap, Pierce and Snohomish. To be eligible for funding under this program, a project must be on the Regional TIP list and rate high enough within the region's priority array. Funding is based on a Federal share of 86.5 percent, with a 13.5 percent local match.

#### TSNS

The goal of the Traffic Safety Near Schools Program (TSNS) is to fund capital projects for traffic and pedestrian safety improvements near schools. Eligible projects include sidewalks and walkways; school signing and signals (within cited limitations); improved pedestrian crossings, such as medians, curb bulbs, flashing in-pavement warning lights in crosswalks, flashing beacons; turning lanes; school bus pullouts; roadway channelization and signalization. Pedestrian facility improvements must be on an approved, published and disseminated school walk route plan; and motor vehicle improvements must be on streets immediately adjacent to the school. A 25 percent match is required.

#### STATE FUNDING SOURCES (TPP, AIP, PSMP)

State funding programs are administered to counties and cities through the Transportation Improvement Board (TIB) and the County Road Administration Board (CRAB). The TIB administers the Transportation Partnership Program (TPP), the Arterial Improvement Program (AIP), the Pedestrian Safety and Mobility Program (PSMP).\
The CRAB administers the Rural Arterial Program (RAP). The following descriptions identify specifics on each program:

#### City of University Place, Washington

#### **TPP**

The Transportation Partnership Program (TPP), formerly the Transportation Improvement Account (TIA), is funded from 1-1/2 cents of the motor vehicle fuel tax. It provides transportation project funding for urban counties, cities with populations of over 5,000, and Transportation Benefit Districts (TBD). TPP projects must meet multi-agency planning and coordination and public/private cooperation criteria, in order to further the goal of achieving a balanced transportation system in Washington State. Projects must be attributable to congestion caused by economic development or growth; consistent with state, regional and local comprehensive plans contributions; and be partially funded by local contributions (including transit and rail). Projects are eligible for cost reimbursement of up to 80 percent, and receive a higher priority if their local contribution is greater than the 20 percent minimum match and includes private sector funds.

#### AIP

The Arterial Improvement Program (AIP) was established to reduce congestion and improve safety, geometrics, and structural concerns. Project selection criteria include pavement condition, pavement and roadway width, traffic, accidents, and people-carrying capacity. The AIP receives approximately 1-1/2 cents from the state motor vehicle fuel tax. Projects can receive up to 80 percent reimbursement, depending on agency population.

#### <u>PSMP</u>

The Pedestrian Safety & Mobility Program (PSMP), formerly the Pedestrian Facilities Program (PFP), was established to enhance and promote pedestrian mobility and safety as a viable transportation choice by providing funding for pedestrian projects that provide access and address system continuity and connectivity of pedestrian facilities. Selection criteria include safety, pedestrian generators, convenience, public acceptance and project cost. Funds for this program are provided from the AIP and TPP.

## **PROGRAM SECTIONS NARRATIVE**

Projects included in this section of the program have been recognized as meeting a City transportation system need. Given the present level of available transportation financing, not all projects are fully funded and are subject to selection. However, projects listed in this section provide other agencies with a clear indication of what the City would accomplish if additional funding were obtained. If an unexpected source of funding for a particular project should become available, the project could be moved forward in the programming process with only minor revisions to the work program. Projects within the project list are identified by improvement type. The following describes these types:

**Ongoing Programs:** Ongoing Programs identifies categories of work that are recurrent or ongoing in nature. Funds in these categories provide for some degree of flexibility for Public Works Administration to respond as necessary to unforeseen circumstances.

**US Open Corridor Projects:** During the next six years, the City will need to plan for a major regional event, the 2015 US Open at Chambers Bay. Because of its significance, the City has identified the key corridors that will be used to serve the event and have identified the projects on the TIP that are part of this corridor. Projects on the US Open corridor list have a high priority status.

**Road Projects:** Road projects include all phases of engineering and construction. Each project may contain survey work, preliminary engineering, preparation of construction plans, right-of-way acquisition work, or the preparation of specifications and cost estimates for construction. The upgrading of existing roads may involve the widening of lanes or shoulders, adding lanes, concrete curb, gutter or sidewalks, revising vertical or horizontal alignment, improving intersections and storm drainage.

The construction of new roadways may involve clearing and grading land, preparing the roadway base with crushed rock, paving, installing storm drainage ditches or structures, and building retaining walls. Roadway projects also include storm drainage work related to roadway construction, maintenance or associated impacts. This may entail construction of new or major revisions to existing surface water detention facilities. These facilities may also mitigate water quality concerns due to roadway construction or use.

**Bridge Projects:** The bridge projects listed are a result of both routine and special inspections of all bridges in the City road system. Proposed bridge replacement projects are first reviewed by a three-member Technical Committee and then by a nine-member Bridge Replacement Advisory Committee. The Assistant Secretary for Local Programs then selects the final bridge replacement candidates.

**Traffic/Signal Projects:** Traffic/Signal projects involve a wide variety of traffic safety improvements but are primarily centered on installation of new traffic signals at intersections where warrants indicate their need.

#### City of University Place, Washington

**Enhancement Projects:** Enhancement projects will be accomplished through implementation of concrete curb, gutter and sidewalks at various locations in the existing roadway network. These projects may incorporate bicycle lanes. Pedestrian safety projects may involve roadway and/or storm drainage work and will enhance pedestrian safety and improve access.

## City of University Place, Wa. 6 YEAR TRANSPORTATION IMPROVEMENT PLAN 2021 - 2026

#### Project Types

Project Type	Project #	Project Name	Project Limits
Е	1	56th St/Cirque Corridor Phase 3	Grandview Dr. to 83rd Ave
T	2	Mildred St/Regents Intersection Improvements	Intersection of 67th Ave & Regents Blvd to 19th Street
E	3	27th St W - Undergrounding	Grandview Drive to Bridgeport Way
Т	4	Cirque/67th Intersection	Cirque Dr and 67th Ave Intersection
Е	5	Chambers Creek Road/Chambers Lane Phase 1	81st Ave W to Bridgeport Way
Е	6	Chambers Creek Road/Chambers Lane Phase 2	64th Street to 81st Aye
R	7	Chambers Creek Road Roundabout	Intersection of Chambers Creek Road and 64th St W
	8	Chambers Creek Trail Connection	Phillips Rd to Bridgeport Way
E	9	44th Street W Phase 1b	Bridgeport Way to 67th Avenue
R	10	Alameda North - Phase 2	Cirque Drive W, to 44th St. W.
E	11	67th Ave Phase 1	Regents Blvd to 40th Street
E	12	67th Ave Phase 2	Bridgeport Way to Cirque Dr
E	13	67th Ave Phase 3	Cirque Dr to 40th St
R	14	40th Street Phase 3	7200 Block to 67th Ave
E	15	Grandview Drive - Phase 5b	27th Street to 19th Street
R	16	Alameda South	From current southern (erminus to 67th Ave. W. (South extension)
T	17	40th Street/Bridgeport Intersection	40th St/Bridgeport Intersection
R	18		
E	19	Larson Lane North	3600 Block to 35th Street
		Sunset Drive	Cirque Drive to 19th Street
Е	20	Elwood Drive Phase 2	29th Street to 27th Street
E E	21	35th Street Improvements Ph 1	Bridgeport Way to 67th Ave
E	22	35 Street Improvements Phase 2	Grandview Dr to Bridgeport Way
	23	Beckonridge Drive Phase 2	Grandview Drive to Cirque Drive
E	24	Lemmons Beach/31st Street/Parkway	City Limits to Elwood Drive
E	25	44th Street Phase 2b	Elwood Dr to Sunset Dr
Е	26	44th Street Phase 2c	Sunset Dr to Bridgeport Way
Е	27	27th Street	Grandview Drive to City Limits
Е	28	Chambers Creek Road "C"	Chambers Lane to Bridgeport Way
Е	29	54th Street Phase 2	79th Ave to Bridgeport Way
E	30	Elwood Drive Phase 1b	Cirque Drive to 40th Street
R	31	Street Overlay Program	Various Locations
R	32	Lakewood Drive Overlay	64th St to Hanna Pierce Rd
R	33	Grandview Drive Overlay	Cirque Drive to 56th St
BR	34	Chambers Creek Bridge Replacement	Chambers Creek Road at Creek Crossing
BR	35	Day Island Bridge Retrofit/Replacement	Day Island Bridge
Е	36	37th Street Pedestrian Connection	Sunset Drive to 7900 Block
E	37	57th Avenue Connection	Cirque Drive to 5800 Block
E	38	Drexler Drive North	37th St to Homestead Park Boundary
R/T	39	Drexler Drive South	40th St to 42nd St
R/T	40	Larson Lane South - Phase 1	37th Street to 38th Street
R/T	41	Larson Lane South - Phase 2	38th Street to 40th Street
R/T	42	Larson Lane South - Phase 3	40th Street to 42nd Street
R/T	43	42nd Street - Phase 1	Drexler Drive to Bridgeport Way
R/T	44	42nd Street - Phase 2	Bridgeport Way to Larson Lane
Т	45	40th Street/67th Avenue Intersection	40th Street/67th Ave Intersection
R/T	46	56th Street Phase 2	89th Ave to 8500 block of 54th Street
R/Γ	47	70th Ave Phase 2	27th Street to 19th Street
R/T	48	37th Street Phase 1	Market Place to Drexler Drive
R/T	49	37th Street Phase 2	7900 Block to Bridgeport Way
	50	ADA Transition Plan Improvements	Various

	Project Costs	Percentage Al	location	\$ Allocation	
	Total	Expansion	Existing Need	Expansion	Existing
Project Name					Need
67th Avenue (Regents Blvd. to 19th Street) Phase 1	1,000,000	100.00%	0.00%	1,000,000
